rmine.

It cannot be denied therefore, that the demo-school system for the protection and support es for a samil for revenue as the true system is very marked. Each state, indeed

The Merchants Exchange of this city gathers when he changed that year from an opponent of J. H. Mitchell to a supporter of that self-sh asters italian from Europe, from Ran Fran-briteria italian from Europe, from Ran Fran-ison and other points on this coast; imedors of the free whicky ring has only to round the coast division of the world. It is obtained at key-mote, and the Yamiili organ-grieder chimes re such subscriber in requirement to such the "long felt want" to larceny. The free and all the many mandition that the whisky association ought to lary another as It's furnished agon opndition that the whisky association ought to lary association ought to lary association ought to lary then he received it. It is a of the contract under which they re-

each merping only the reports of the preceding day. For this news THE OREGONIAN pays the Arms has wasted it, but could not afford to pay what it was worth, and therefore its commercial, market and shipping reports have been as meager and lean as its other lines of news. This week, however, it has been printing the Mer hants' Exchange reports. The manager of the Exchange set about an inquiry as to how it got them. It was certain that it was employing the method of the sucal-thief, and by skillful management the dishesorable transaction was created out. It was traced to a subscriber on seen detected, and that he would receive the report no more. So it appears that the organ of free whicky, of disreputable politics, and of whatever class is low sfild hase, is just the sneak-thief business busides. The dow and visious some of its whole career shows only too plainly that this busides transaction is characteristic.

The company of the Commandation of the Mandation of the Mand indeed, quite the thing that was to be expected. its manager has no more right to get the re-ports of the Merchants Exchange in the way he has been getting them this weak than he would has been getting them this wask than be well have to pick the Exchange's money drawer.

The moral lavel of the two transactions would be the same. The reports of the Exchange have been offered him for the fair price which THE CRECORIAN pays, but he has do lined to take them; and at the same time he testifies to their value by obtaining them through a dis-honest neethed. This is sneak-third journalism. with all that the term implies. It is not par-ticularly the business of THE OREGONIAN to deal with Mark Levy, the accomplice in this transaction; the Merchants' Exchange may do that. But The Orenorian may remark that if Mr. Levy thinks his part in this affair hunorsole to himself he is not likely to be troubled by a crowd to congratulate him upon his

opinion.
